IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: )  
Hidetaka HIYOSHI et al ) Examiner:  
Serial No: 10/589,534 )  
National Phase Filed: August 15, 2006 ) Group Art Unit:  
For: SUSTITUTED SYM-TRIINDOLE )

**CORRECTED SUBSTITUTE SPECIFICATION**

**COMMISSIONER FOR PATENTS**

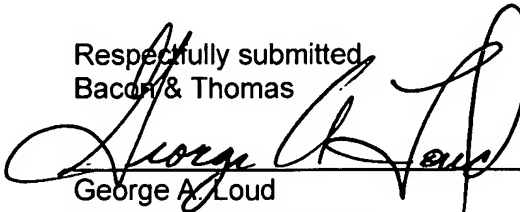

**P.O. Box 1450  
Alexandria, VA 22313-1450**

Sir:

Applicants have noted that the substitute specification filed with the preliminary amendment on August 15, 2006 had tables cut off at the bottom (incomplete) at pages 42, 49, 61 and 72. Accordingly, a corrected version of the substitute specification is submitted herewith. This corrected version of the substitute specification includes the changes indicated on the marked-up copy filed as part of the Preliminary Amendment filed with the National Phase submission on August 15, 2006 and contains no new matter, as the complete tables are present in the International Application and in the original English translation. The document filed November 21, 2006 inadvertently omitted the changes (amendments) of the original substitute specification.

Respectfully submitted  
Bacon & Thomas
